

Where Can You Get More Music or Fun For the Money Than in An EDISON Phonograph?

It combines in one instrument more varieties of high class music and fun than any other automatic entertainer.

Read What It Does

It tells funny stories:—the equal of the best comedians of the vaudeville stage. If you can't tell a language story well, get the Phonograph to do it for you.

It sings songs:—any kind and style, soprano, contralto, tenor, basso-mime or mixed quartettes, duets, or sextettes; popular, operatic, or sacred music.

It renders instrumental music:—so perfectly that you can imagine the original instruments or band being played in the room. When they are not too loud for the house, the tempo, tone-quality, and expression are splendid.

It provides music for dancing:—The records are made especially for this purpose, under the direction of a noted dance master, and to these square dances are furnished without cost. Learn to dance in private or teach your children at home, with the Phonograph as your teacher.

It entertains children as well as adults:—A baby to two months. No matter how fast the children may be, they will listen to the Phonograph without fatigue in both ears.

Entertains visitors or sick people:—Unseen visitors can be greatly entertained by the Phonograph, and it cheers the invalid and relieves the tedium of convalescence like nothing else.

It records voices and instruments:—You can record your singing or play to the Phonograph and thus make a permanent record for future reproduction. Make a record of your friends' voices, or your friends' performances. They will be valued in later years.
